

Celine Yu Website Proposal

Intro to Web Development

Web Specs

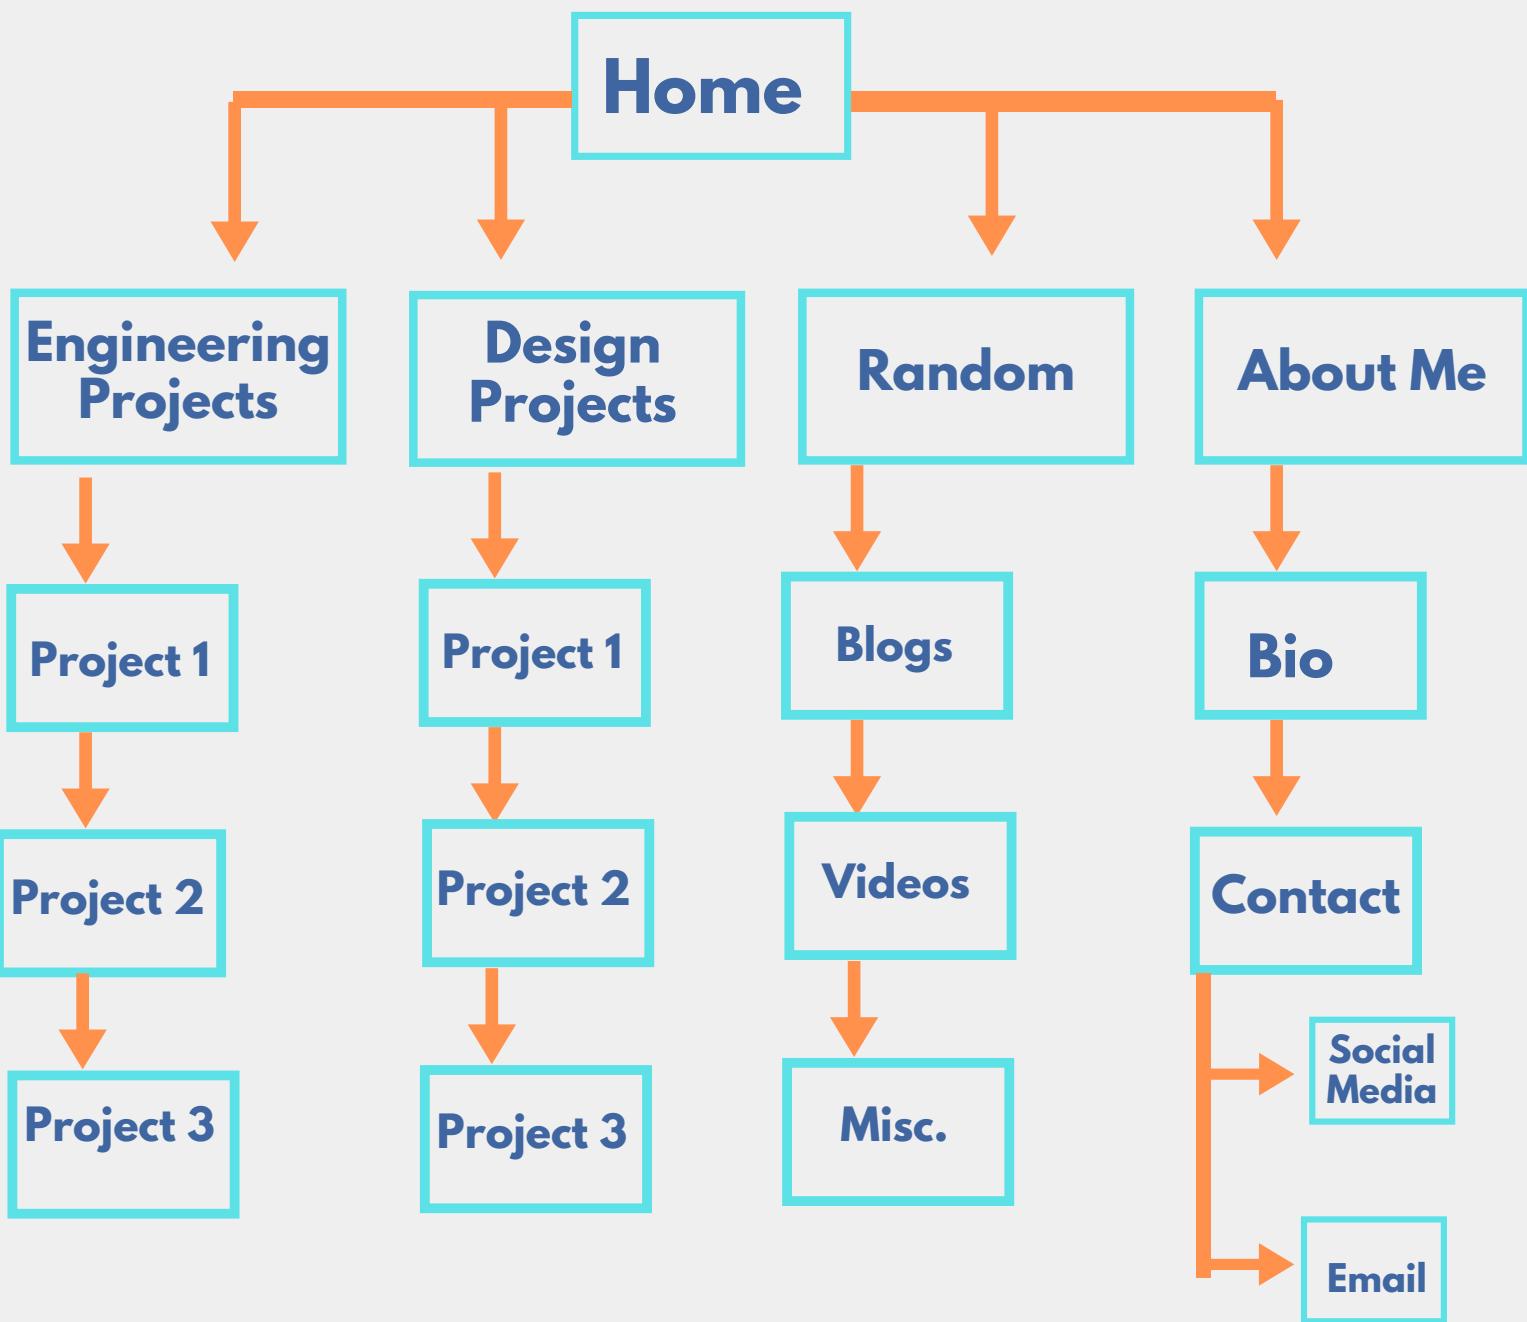

Purpose for my site:

The purpose of my site is to showcase different aspects of myself in a portfolio. I want this website to show bits of my academic career, achievements, personal goals and hobbies. When you look at my webpage, you should be able to see separate categories of the things that I love to do. For example, I would love to display my engineering portfolio as well as hobbies like photography and videography. I want the audience to be able to develop a character and personality for me through the projects I displayed.

Content:

- Types of Projects
 - Each Project Description
- About Me
 - Contact Me
